

Job Role: Assistant Site Manager

Location: Bootle, Liverpool

Job Type: Full time

Who We Are

GRG provides infrastructure and services for all forms of solid, hazardous, liquid, and inert waste in large and small economies, be they from public or commercial sources, with the aim of diverting waste from landfill and maximising the sustainability credentials of all waste streams it receives. Today, the GRG group employs over 200 people and operates in Guernsey, Jersey, the Cayman Islands and the UK, and has become a UK market leader for hazardous and specialist waste. All operating companies in the UK are owned by GRG Waste UK, a subsidiary of the parent company GRG, and is made up of 5 companies, including BKP Waste & Recycling, Greenway Environmental, Chloros Environmental, Novum Waste Recycling, and Diverse Waste Solutions, that work in unison to offer a wide range of services.

Greenway are experts in the hazardous waste industry, handling a wide range of hazardous and non-hazardous waste streams, including corrosive liquids, paints and solvents, contaminated rags, oil sludge and filters, aerosols, oxidisers, WEEE and resins. Greenway operates a Total Waste Management division which offers a full-service solution from site visits and sampling to container supply and transportation. Greenway pride themselves in offering industry-leading response times for their services and turning waste into energy, through innovative and sustainable solutions.

What we are looking for

Greenway are looking for an Assistant Site Manager to join the team at the Bootle Site. This position will require you to work closely with the Site Manager to assist with the day-to-day management of the Redfern St waste facility and all of the processes within.

This is a hands-on role and will involve working with the on-site team to ensure full permit compliance during day-to-day operation of the site, and training and support will be provided wherever necessary.

Main duties and responsibilities

Will include but will not be limited to the following:

- Ensuring full compliance with the site permits
- Waste acceptance and compliance with pre-acceptance
- Organisation of site operators
- Liaising with Senior Chemist and Process Chemist to ensure sufficient staffing cover across all areas of the site
- Stock control and maintenance below permit limits
- Compliance with HSE segregation guidelines
- Assessment, organisation, and upkeep of staff training requirements including new starter inductions and training programs are organised and adhered to
- Responsibility for contractor inductions and permit-to-work implementation
- Liaising with site management to best implement day to day work requirements
- Liaising with relevant authorities as the job demands
- Holiday and illness cover for the Site Manager

About the role

- Full time, permanent
- Pay from £40,000 per year

What We Can Offer You

- Health & wellbeing programme
- Private dental insurance
- Private medical insurance
- Company pension
- Free on-site parking
